**Messedcomics@gmail.com** and you might be named “Flusher of the Week”!

**A. Combined sewer**

**B. Sanitary sewer**

**C. Wastewater**

**D. Effluent**

**E. Clean Water Act**

**F. Storm sewer**

**G. Choke**

**H. Dreg or Dregging**

**I. Clew**

1. Liquid waste or sewage flowing through a sewer system to be processed by treatment plants.
2. Type of sewer designed to carry rainfall and other drainage to nearest open natural water source.
3. Primary federal law in the U.S. governing water pollution. Goal of restoring and maintaining the chemical, physical and biological integrity of the country's water supply.
4. A tangled group of tubifex worms. Watch out, they may bite!
5. Any dam-like obstruction clogging sewer tunnels and preventing effluent from flowing. Pretty annoying for a flusher!
6. Type of sewer that carries sewage and rainwater (together in the same pipe) to nearest open natural water source.
7. Any water adversely affected in quality by anthropogenic (people) influence.
8. What's your definition? \_\_\_\_\_
9. Type of sewer that carries sewage to a treatment plant to be filtered and treated.
